```
;; Apply the function f(x,y) = x + 2y to the
;; x values [1 2 3] and the y values [10 9 8]
;; Produces [21 20 19]
(map (fn [x y] (+ x (* 2 y)))
     [1 2 3]    ; these are values x1, x2, x3
     [10 9 8]) ; these are values y1, y2, y3
```
